Universal Service Funding for Schools and Libraries

FY2013 E-rate Funding Requests Telecommunications and Internet Access By Schools & School Districts

Submitted to the Federal Communications Commission

July 3, 2013

In this document, the Commission will find a detailed analysis prepared by Funds For Learning® (FFL) of E-rate funding requests submitted by schools and school districts for Funding Year 2013 (July 1, 2013 to June 30, 2014). It does not include funding requests submitted by libraries or consortia.

The analysis is based entirely on public information. In preparing it, FFL has done its best to eliminate the impact of duplicate information and to otherwise prepare an accurate representation of the E-rate Program's FY2013 funding data. However, because schools can be listed on multiple Form 471 applications and applicants can and do prepare those forms multiple ways, FFL cannot guarantee that the analysis is one hundred percent accurate. In certain instances, FFL had to use its professional judgment, derived from many years of experience working with USAC's E-rate database and even more years of experience working directly with E-rate funding applications, to make decisions about whether to combine or eliminate data.

Funds For Learning® is a professional firm specializing in the federal E-rate funding program. Our mission is to provide high-quality consulting and support services for the needs of E rate program participants. We consult with clients to help them understand, effectively utilize, and maintain compliance with E-rate rules and regulations. We help prepare and submit paperwork, and we interact with program administrators on our clients' behalf.

Professional Standards of Conduct

Funds For Learning ("FFL") has established and implemented several self-imposed professional consulting standards for our firm and its employees. Although no formal regulation exists governing E-rate consultants, FFL voluntarily complies with the following Code of Conduct, Code of Ethics, and Code of Client Confidentiality.

CODE OF CONDUCT

FFL understands that conflicts of interest or the appearance of impropriety can negatively impact customer trust and/or E-rate application success. Therefore, FFL has a comprehensive Code of Conduct to which its staff complies. Below are several key elements of this code:

- FFL does not sell or offer any E-rate eligible services
- FFL does not have a SPIN (Service Provider Identification Number)
- FFL does not prepare technology plans.
- FFL does not advise clients on what technology to procure or from whom to purchase it.
- FFL does not receive payment from service providers based on their sales to applicants.

CODE OF ETHICS

FFL is a founding member of the E-rate Management Professionals Association (E-mpa®). This association has developed a comprehensive Code of Ethics for E-rate consulting firms. This Code of Ethics is based on similar codes established for Certified Public Accountants. As a member of E-mpa®, FFL agrees to comply with the E-mpa® Code of Ethics.

CODE OF CLIENT CONFIDENTIALITY

FFL places a high-value on client confidentiality. FFL employees frequently receive confidential information from client customers. FFL does not share that information with other parties. Furthermore, as a condition for employment, each FFL staff member agrees to and signs a strict client confidentiality agreement.
