*****This analysis is just a *preliminary* demand estimate as not all the Form 471 applications are in the SLD's Data Retrieval Tool (DRT) yet. There are also several large applicants such as the New York City Board of Education who file paper Form 471s and it may take a week or two for that information to be data entered into the DRT. The New York City Board of Education files on behalf of 1600 sites and typically requests approximately \$300 million annually.
