For Immediate Release

**FCC ANNOUNCES OVER \$20 MILLION IN EMERGENCY
CONNECTIVITY FUNDING FOR SCHOOLS AND LIBRARIES**

***To Date Over \$6.6 Billion in Funding Committed in Ongoing Work to Close the
Homework Gap***

WASHINGTON, March 1, 2023—The Federal Communications Commission today announced it is committing over \$20 million in a new funding round through the Emergency Connectivity Program, which provides digital services for students in communities across the country. Today’s funding commitments support applications from all three filing windows benefiting approximately 190,000 students across the country, including students in California, Florida, Maine, Oklahoma, Washington, and Wisconsin. To date, the program has helped provide over 17 million students with digital connections to their schools.

“Today’s funding round is another important step in our ongoing work to connect all our students to digital tools for communicating with teachers and schools,” **said FCC Chairwoman Rosenworcel**. “This program has made significant progress in our dedicated commitment to close the Homework Gap across the country.”

The Emergency Connectivity Program, which launched in 2021, has provided schools and libraries three different “application windows” for schools and libraries to apply for support. Today’s announcement will support over 90 schools, 8 libraries, and 5 consortia. In this funding round, nearly \$375,000 will support applications from the first two application windows, and \$19.8 million for applications from the third application window.

The funding can be used to support off-campus learning, such as nightly homework, to ensure students across the country have the necessary support to keep up with their education. To date, the program has provided support to approximately 11,000 schools, 1,000 libraries, and 100 consortia, and providing nearly 13 million connected devices and over 8 million broadband connections. Of the over \$6.6 billion in funding commitments approved to date, approximately \$4.14 billion is supporting applications from Window 1; \$833 million from Window 2; and \$1.65 billion from Window 3.

More details about which schools and libraries have received funding commitments can be found at <https://www.fcc.gov/emergency-connectivity-fund>.
